# MOTOTRBO™ SL3500e and SL3500Max portable two-way radios

Instant communication professional style

# MOTOTRBO SL3500e and SL3500Max portable two-way radios

## Perfectly suited for business

Slim and lightweight, the MOTOTRBO SL3500e and SL3500Max portable two-way radios provide instant communication in a stylish and discreet design. They blend seamlessly with professional attire, allowing you to move freely. At the same time, they're durable and built to last.

These radios are designed with a virtual keypad and display, giving you quick access to key radio functions along with information at a glance - all without compromising your style. Connect discreetly to Bluetooth® earpieces and sensors, maintaining a smart look.

Access Wi-Fi networks for over-the-air software updates. Or, if you work in a larger organization, use the radio on trunking systems that support both data and voice.

And the SL3500e and SL3500Max are part of our unified workgroup communications solution that allows employees to communicate instantly, without boundaries, and with added intelligence across the entire organization.

MOTOTRBO SL3500e and SL3500Max portable two-way radios.  
Perfectly suited for business.

## Key benefits

- Beautifully designed
- Virtual keypad and display
- Bluetooth® connectivity
- Integrated Wi-Fi®
- Systems capable

# Discreet productivity

The MOTOTRBO SL3500e and SL3500Max portable two-way radios use a virtual keypad and display for device control and status messages, lighting up when you need it and going dark when you don't.

It simulates the feel and responsiveness of a physical keypad, allowing you to customize the buttons to vibrate, sound a tone, or stay silent. And its two-line OLED display gives you important information at a glance, including battery life, signal strength, current channel and scrolling messages.

# Suits your style

Slim, lightweight and sophisticated, the MOTOTRBO SL3500e and SL3500Max portable two-way radios give you instant communication - without the bulky look and feel of a traditional radio.

At just 23 mm, 0.9", they fit easily in your hand, or discreetly in a suit jacket or pants pocket. At only 190 grams, 6.7 oz, you can move freely and comfortably without being weighed down. Sleek and attractive, the SL3500e and SL3500Max blend with business attire and enhance your professional look.

# Over-the-air updates

Your team should spend time helping customers, not managing radios. With built-in Wi-Fi, the SL3500e and SL3500Max can be updated over-the-air.

Instead of programming devices one by one, IT managers can save valuable time by sending updates to the entire fleet. No more connecting cables by hand. No more taking radios out of service.

# Talk hands-free

In any profession where image matters, it's important to maintain a smart, organized appearance.

The MOTOTRBO SL3500e and SL3500Max portable two-way radios connect with wireless accessories such as Bluetooth earpieces, allowing you to keep your radio out of sight - but not out of touch. And as Bluetooth sensors become more prevalent in the workplace, the SL3500e and SL3500Max are ready to work with your new devices and apps.

## Ready for more

MOTOTRBO systems are scalable so your network can grow with you.

The SL3500e and SL3500Max support conventional operation for single sites and IP Site Connect so you can link multiple locations into a single network. Or scale up to Capacity Plus for higher call capacity thanks to the efficient channel and spectrum usage of MOTOTRBO trunking. Additionally, SL3500Max is compatible with our ultimate DMR trunking solution, MOTOTRBO Capacity Max.

## Unite your team

Communicate instantly across your organization.

Our unified communication solutions allow employees to connect instantly, without boundaries, and with added intelligence across the entire organization. Pair MOTOTRBO radios with WAVE PTX and other data solutions to enable machines, applications and people to connect seamlessly, helping bridge the gaps so work gets done faster.

# Packed with features

Your business relies on instant communication to provide exceptional service. But you want a device that projects a sophisticated professional image, not a bulky one that gets in the way.

# Accessories

Make the most of your SL3500e and SL3500Max with MOTOTRBO accessories.

By spending countless hours in the field with customers, we've developed accessories that aren't just the most innovative, but also the most useful.
